WELCOME MESSAGE

By Natalia Foley, Esq
President of Rich Attorney Conference

As the president of RICH ATTORNEY CONFERENCE, I want to thank you for attending our first 2021 Summer Conference via ZOOM. This new year promises to be exciting as well as challenging - a challenge that we, California Attorneys, are prepared to tackle.

Our conference team has been hard at work planning a weekend of exciting programs, speakers and workshops, all designed to educate and inspire you as we "Chart Our Course" for the future.

California Attorneys are unfailingly optimistic. We follow our Founding Fathers' ideals of freedom and the rule of law which keeps our compass safely set in the right direction.

This year will offer California Attorneys unprecedented opportunities as we continue to expose the opportunities of new era technology. To succeed, we need to be proactive, take advantage of modern technologies so we can provide better quality services to much more clients as before and be able to earn comfortable living to support ourselves and our families at the level we already dreamed about.

Most of all, we California Attorney will work tirelessly to protect people' rights in ever changing environment.

YOU ARE INVITED!

Rich Attorney Conference invites all California attorneys interested in this area of law to attend our 2021 Summer Workers Compensation Convention.

01

Our virtual doors are also open for those law school students who are still working toward their law license but are eager to jump into the exciting world of the workers compensation industry, and who are looking for an opportunity for practical legal training.

WHO WE ARE

“

A successful man is one who can lay a firm foundation with the bricks others have thrown at him. – David Brinkley

”

Rich Attorney Conference (RAC) has been established by prominent California attorneys as a response to ever changing work environment.

Our goal is to facilitate flexible business approach in legal practice. We aim to address an incredible increase or new technologies used in legal practice including but not limited to telephonic or video court appearance, video trials, super comfortable online legal research systems, numerous paralegal services helping attorneys to prepare and serve documents, subpoena and obtain records online, not to mention an opportunity to take advantage of various software systems helping in managing cases and communicating important information with clients.

All of the above helps attorneys to be extremely productive and allow them to minimize expenses and maximize profit steadily achieving whooping one million dollars a year without leaving a house.

Modern solo attorneys are absolutely capable of competing with large, high profile law firms. California workers compensation attorneys are making a pretty good living and

boutique law firms specializing in workers compensation have the potential to earn over one million dollars a year.

Many segments of legal practice are not taught in law school. You can learn the labor laws, but you might not be able to successfully practice workers compensation straight out of law school. You might know torts, but you will not be able to immediately start your own personal injury law firm.

It takes years to learn any particular area of legal practice. It takes even more time to learn how to run your own legal practice.

What if you need to regroup immediately and time is of the essence? If that is the case – you need a serious legal boot camp that will give you all of the knowledge, skills and support you need to move to a new legal specialty almost overnight. That's what we offer here.

RAC is proud to present its inaugural 2021 Summer Convention dedicated to WORKERS COMPENSATION legal specialization.
